

S-26 BUCCANEER LIQUID PLASTICS

1.2 S-26 Storm Seal Heavy Duty (HD)

WATER SOLUBLE – No Voc's

General application instructions

S-26 Storm Seal Heavy Duty is not a paint.

It is a mastic and as such has completely different characteristics to normal paint.

"It's claim to fame" is its longevity, full water proofing and gas proofing characteristics and its ability to move and flex with the substrata for as long as 30 years – providing of course it is applied correctly – and of course its ability to fully water proof vertical walls to prevent moisture and dampness from within a building caused by driving wind and rain.

It can also cure walls of buildings that suffer from thin hairline cracks.

It's downside is that because it uses a softish flexible resin. It can remain tacky for a month or so, and tends to accumulate dust – acceptable on flat roofs – but generally not acceptable on sloping roofs.

The way to overcome "tackiness" is to liberally apply talcum powder and brush over the HD. This immediately prevents the "tackiness". The other alternative is to apply S-26 Storm Seal LD (Light Duty) over the HD (Heavy Duty) or 1 coat of S-26 Wall Seal where S-26 Storm Seal HD has been applied on walls.

► NEVER DILUTE THE PRODUCT!

Application Instruction:

Important: See our Preliminary and General (P&G) Notes

Specifications for flat roofs:

1. Apply 1 coat of S-26 Stabilising Primer.
2. Followed by 2 coats (2 different colours) of S-26 Storm Seal HD to a combined minimum thickness of 500 microns.

On major flat roofs requiring a minimum of 10/15 lifespan incorporate a 60% Polypropylene shade cloth between the 1st and 2nd coat of S-26 Storm Seal HD. The average thickness being $\pm 1.5\text{mm}$

Specifications for weather facing walls:

1. Apply 1 coat of S-26 Stabilising Primer.
2. Followed by 1 coat of S-26 Storm Seal HD
3. Apply 1 coat of S-26 Wall Seal (can be tinted)

Application Tools:	Block Brush, Brush
Cleaning Tools With:	Water
Spread Rate:	$\pm 4\text{m}^2$ per litre depending on substrata
Packaging:	1L, 5L, 20L
Colour:	White, Grey, Charcoal, Black, Terracotta Red, Mid Green
